Business Industrial Network will be hosting this best in class PLC Logic Controller Training at the world class Denver Tech Center area of Colorado (DTC Denver, CO). Gain job security and improve your company with our Safety and Reliability focused PLC control logic training in beautiful DTC Denver, CO.(1.6 CEUs)

Companies: Bring your electricians up to PLC Tech level or use our PLC Logic Controller training to cross-train engineers, general maintenance, mechanics and IT personnel, in just 3 days. Even maintenance managers attend our seminars to capitalize on our valuable insight to managing PLCs in their organization and to get more familiar with PLCs.

Individuals: Even 20 year veterans to the electrical and maintenance field, as well as those who have had previous PLC Training, comment they walked away from our training with valuable time and money saving tips, that they did not pick up on their own or from other PLC training providers. Maintenance Managers look for PLC Logic Controller experience like we deliver. Before the IT person seeks knowledge about PLC Control Logix, they need a good foundation in RSLogix that we provide.

This three day workshop is based on the same onsite customized PLC 5® and SLC 500® PLC training course used to reduce downtime in FDA regulated manufactures, Government Facilities and Fortune 500 companies through out the United States. This PLC Logic Controller course is not just text book PLC instructions, but practical knowledge and case examples based on years of experience.

This PLC course will offer information your people will actually use out on the shop floor. A crash course in how to reduce downtime while working with Allen-Bradley's RsLogix™ PLC 5® and SLC 500® software. The 3rd day of this seminar is our "Challenge Workshop".

To offer you the greatest return on your PLC training investment this seminar is focused on ...

- **Troubleshooting**
- **Reducing Downtime**
- **Safe and Reliable Procedures**
- **No Sales, Unbiased PLC Training**
- **Class Size of 10, Greater Knowledge Transfer.**
- **Continuing Self Education**

What you will receive ...

- World Class Training
- Hands On Experience
- Classroom Handouts
- A copy of the Power Point
- Certificate of Achievement
- Follow up support by email
- A PLC Simulation CD
- Our Cables & Driver DVD
- Challenge workshop attendees receive more advanced programming examples
- The confidence to continue to learn and more.

We are a Strategic Training Partner for the Association for Facilities Engineering (AFE) and provide AFE members a 10% discount.

Side Notes: This is a hands on, relaxed adult continuing education atmosphere with instructors roaming the class, giving each individual help with SLC 500®, PLC 5® and Micrologix equipment used in class.

Hotels:

[Courtyard Denver South/Park Meadows Mall](#)

Note: If Seminar Ends 4:30 Thursday, please book travel accordingly. (Friday Travel recommended)

Register TODAY because seating is limited and they fill quickly! Also you can register online at ... bin95.com/plc_logic_controller.htm

The instructor for this seminar will be Jim Joros, local Denver resident who delivers our on-site PLC training through out the USA. Instructors will roam the class helping all attendees with the course outline and hands on application.

Customer Comment ...

"Our skill levels ranged from expert to beginner and no one was left behind. Tell Don I said hello when you speak with him. This guy is good."

Ross Thomas, Jr
BNFL
K33 Decon/Final Survey Building Ops Manager

"This training is not like the vendor training we have received before where they try to sell you their hardware. We where getting hands-on training after the first hour and advice that only an experienced end-user would offer. A great supplement to our tech school training. Thanks"

Jim
Maintenance Manager
